

THE TEACHING OF THE HOLY GEOMETRY

The Teaching of the Holy Geometry of Attilio Ferrara is unique, strong, and powerful. The AUNDA-healer receives the capability to energetically build up single geometrical, three-dimensional forms in rooms. Thereby every person in the room can receive the divine frequency.

Seven geometric bodies, which are assigned to the respective chakras, belong to the Holy Geometry. Never before were these symbols available to the people.

The symbols of the Holy Geometry can be used to support healing treatments as well as for individual support of the healing process. Every geometric body supports a specific part of a person at all three levels. The required symbol of the Holy Geometry is built up indoors and remains in the room as long as the client needs it. If the client leaves the room for more than three hours, the energetic symbol withdraws by itself.

The frequencies of the symbols of the Holy Geometry and the frequencies of the Rainbow Colors reinforce each other and obtain an even stronger vibration.

The order of passing on the consecrations is designed according to the frequencies so that the body can adapt itself to the higher and even higher frequencies.
