

TEACHING 2 – THE POWER OF HEALING

The Second Teaching lets the AUNDA-healers, who have passed the First Teaching, grow up into AUNDA-ambassadors themselves for the First Teaching. The new frequencies of the Second Teaching are so high that they extend the Light Body of the participants again by double. This extension of the Light Body by three to six meters makes it possible for them to pass on the frequencies of the First Teaching.

However, spiritual growth and the complete integration of the frequencies are of primary importance for the receiving healer. The power of the frequencies illuminates the shadows and pushes dark experiences out of the body. When the healers' attention is focused on their own growth, it is always accompanied by introspection, recognition, understanding, and confidence. The AUNDA-healers, receptive and receiving, experience the Second Teaching as a profound personal development. Their self-assurance and knowledge of the universal laws are constantly increasing over the course of the training.

The Second Teaching enables the AUNDA-healers to grow so strongly that they are able to let flow the doubling of light volume through the extension of the Light Body. That makes all participants unusually powerful healers.

The Second Teaching consists of eight consecrations and can be accepted within various time intervals.
